

Booster Seat Installation Checklist

Print and use every time you install or check your booster seat:

Before Installation

- ☐ Read booster seat manual completely
- ☐ Read vehicle owner's manual for car seat information
- ☐ Choose appropriate seating position (preferably back seat)
- ☐ Ensure vehicle seat has proper headrest or high back booster

During Installation

- ☐ Place booster seat firmly against vehicle seat back
- ☐ Route seat belt through proper belt guides
- ☐ Ensure lap belt sits low across child's hips
- ☐ Check shoulder belt crosses chest and shoulder (not neck)
- ☐ Verify booster seat doesn't move more than 1 inch side-to-side

After Installation

- ☐ Test seat belt fit with child seated properly
- ☐ Ensure child's back is against vehicle seat
- ☐ Check that child's feet rest flat on floor
- ☐ Verify knees bend naturally over seat edge
- ☐ Confirm child can sit properly for entire ride

Regular Maintenance

- ☐ Check installation monthly
- ☐ Monitor seat belt fit as child grows
- ☐ Inspect booster seat for damage or wear
- ☐ Clean according to manufacturer instructions
- ☐ Re-evaluate when to switch to booster seat appropriateness regularly
